PROJECT DETAILS

Client Name	ROITech Consulting
Project Role	Architect & Team Lead
Designation	Senior Technical Lead
Platform	Microservices Platform
Duration	1 year

Responsibilities:

- Architected microservices platform with AI-powered resume parsing achieving 92% accuracy.
- Optimized PostgreSQL queries for sub-80ms performance on 1M+ records using trigram indexing.
- Led team of 8 developers with CI/CD pipeline reducing deployment time by 83%.

Client Name	YesCozy
Project Role	Full Stack Developer
Designation	Full Stack Developer
Platform	Web and Mobile Applications
Duration	Ongoing

Responsibilities:

- Built production platform with LangChain + OpenAI Vision for AI-powered task recommendations.
- Implemented OAuth 2.0 with Google/Apple Sign-In and JWT-based authentication.
- Developed cross-platform solution with native Android (Java) and iOS (Swift) WebView apps.

Client Name	PMS (Project Management System)
Project Role	Architect & Team Lead
Designation	Senior Technical Lead
Platform	Web Application
Duration	2 years

Responsibilities:

- Designed enterprise project tracking system with resource allocation and timeline management.
- Built scalable multi-tenant architecture with role-based access control.
- Configured AWS infrastructure with automated deployment pipeline serving enterprise clients.

Client Name	RSC (Right Stage Customization)
Project Role	Full Stack Developer
Designation	Full Stack Developer
Platform	SAP Cloud Solutions
Duration	3 years

Responsibilities:

- Built SAP business process automation platform with 15 interconnected modules.
- Developed Planet 9 solutions with authentication and multi-application launchpads.
- Implemented data visualization dashboards processing millions of records.

ACHIEVEMENTS

- Architected backend systems supporting 7,000+ concurrent requests using worker threads and Redis.
- Optimized database query performance by 65% through advanced indexing and PL/pgSQL.
- Configured AWS infrastructure serving 100,000+ monthly active users.

- Achieved 95+ Google Lighthouse scores across 3 production Next.js applications.
- Mentored over 8 developers and conducted 1,700+ code reviews.

ACADEMIC DETAILS

Bachelor of Computer Applications (BCA) in Computer Science, 2019
